Flooring Care and Maintenance

Clean the floor with any non-abrasive household cleaner and/or a damp cloth.

Clean the floor using a vacuum with hard-floor attachments. Do not use vacuum cleaners with a beater bar attachment.

Do not use steam cleaners or cleaning machines that buff the floor.

Do not wax, polish, sand, or lacquer the floor.

Do not use abrasive cleaners or steel wool.

Remove stubborn stains such as adhesive, paint, asphalt, oil, etc. with mineral spirits or paint thinner.

Place protective felt, rubber, or plastic floor protectors under chair and table legs and with other movable furnishings to help prevent scratches and scuffs.

Walk-off mats are required at door entrances to the outside.

Do not drag heavy furniture or appliances across the floor without adequate protection (carpet remnants, etc.)
